

Andrology Australia (an RACGP Accredited Activity Provider), in partnership with
Your Fertility (an Australian Government funded national public health education program) presents:

GP webinar

Addressing the sensitive topics of fertility and preconception health with your male and female patients

Wednesday 13 March 2019, 7.00 – 8.30pm AEDT

There is increasing evidence that optimising both parents' health in the preconception period is crucial to improving short and long-term outcomes for mothers and babies.¹

Learn about current evidence and resources available to support your clinical practice

The **1.5-hour free webinar** will be hosted live by Ms Sophie Scott, ABC National Medical Reporter, featuring:

- current evidence on male and female fertility from fertility specialists
- ways to incorporate fertility and preconception health education into your practice
- facilitated discussions, including patient perspectives, responding to your questions at registration and during the webinar
- GP resource pack

			
Ms Sophie Scott ABC National Medical Reporter	Prof Rob McLachlan AM FRACP, PhD, Medical Director Andrology Australia	Dr Shannon Zawada MBBS, MMed, FRANZCOG	Dr Magdalena Simonis MBBS, FRACGP, DRANZCOG

This activity has been approved by the RACGP QI&CPD Program in the 2017-19 triennium 3 Category 2 points – (Activity:152843). To be eligible for the CPD points, participants must be logged into live webinar.

View presenter profiles and learning outcomes [here](#)

- *Men aspire to parenthood as much as women do but have limited knowledge about the factors that influence fertility.²*
- *Most GPs surveyed did not feel confident in their knowledge about the modifiable risk factors that affect male fertility, and were united in their need for education opportunities.³*
- *Building on their existing relationships, GPs have an opportunity to gain an understanding of their patients' short and long-term reproductive goals.⁴*
